MORE PEOPLE RIDE ON GOODYEAR TIRES THAN ON ANY OTHER KIND

Dear Sir:

The best numismatic magazine is the Numismatist published in Baltimore, Maryland by Frank G. Duffield 4215 Fernhill Avenue, at $2.00 a year. This is issued by the American Numismatic Association which has no connection with the above Society. I think if you are interested in coins it would pay you to join the association as well. I am enclosing an application fmmm which explains everything. The only other magazine published on coins in this country is the Coin Collector's Journal published by the Scott Stamp & Coin Co., 1 W. 47th St., New York City. The subscription price is $1.00 a year. I would suggest that you might subscribe to this also.

Very truly yours,
